Membership of the TRN Executive Forum is by invitation only.

The Opportunity

A number of TRN Members have built businesses that share a number of things in common – scale, profitability, ambition and a progressive mindset. TRN Membership has for 10 years created a community to help leaders access ideas, peer enabled benchmarking, development of the team and so much more. But the biggest, most ambitious TRN Members are asking for more – from PE readiness, SLT structure and capability, M&A etc – they want to hanging out with the best to stay ahead.

The Answer

TRN Executive Forum is a handpicked collection of 12 business leaders per group, relevant to each other with shared values and a willingness to collaborate on an even deeper level to really learn from peers. Chaired by a paid professional. Accessing world class experts. Including development for your key people. With an agenda built by the Members.

Built With Members, Not For Members

This was shaped and co-designed following a hugely successful pilot workshop run in June and research from a number of Members who have requested this evolution of what they need and would value for the next chapter. The first cohort of 12 leaders signed up within 7 days of the launch
